ADVANTAGE CONCRETE FORM RELEASE OIL

OVERVIEW

ADVANTAGE CONCRETE FORM RELEASE OIL is a premium quality lubricant formulated as a quick, non-staining releasing agent for metal and wooden forms. The fluid is especially compounded with a combination spreading and releasing agent to prevent cement from adhering to form surfaces. This product meets federal guidelines for VOC compliances, and it can be applied using a brush, spray or roller application.

FEATURES & BENEFITS

ADVANTAGE CONCRETE FORM RELEASE OIL is an easily appliaple, ready to use oil. It provides quick and clean form release. ADVANTAGE CONCRETE FORM RELEASE OIL is a low odor, light color, low-VOC oil and can be used neat (does not require cutting).

APPLICATIONS

ADVANTAGE CONCRETE FORM RELEASE OIL is designed for all temperatures and most all concrete molding operations.

TYPICAL PROPERTIES

PRODUCT CODE	**152**
Viscosity, SUS/100°F	65
Color	L0.5
Lubricity Agent %	6.0
Flash Point, COC °F	310
Pour Point, °C	-25
API Gravity	30.6
Volatile Organic Compounds	300
