

ADVANTAGE SOL-P

Overview

ADVANTAGE SOL-P is a premium quality, general purpose soluble oil. It provides excellent rust protection, and emulsion stability. The result is a longer lasting material well suited for all general purpose machining, grinding, specialized quenching and water hydraulic applications.

Features and Benefits

ADVANTAGE SOL-P is a versatile and economical product designed for a myriad of applications. It is an excellent choice for cutting and grinding steel and cast nodular iron. It can also be used to machine aluminum and copper alloys, though these materials should be immediately removed after machining to prevent staining.

Applications

This general purpose oil has many applications and is designed to operate in conditions where proper coolant maintenance is essential. Recommended concentrations vary depending on the application. General Machining (5-10%), Grinding (2-4%), Specialized Quench (10%), Water Hydraulics (1-3%).

Typicals

PRODUCT CODE	200
Viscosity, SUS/100 °F	195
Specific Gravity, 60 F	0.924
Flash Point, COC °F	325 min
Pour Point, °C	-10 min
Color	4.0
