

## ADVANTAGE CUT 462

### OVERVIEW

ADVANTAGE CUT 462 is a premium quality cutting fluid. It contains active-sulfo-chlorinated fat. This versatile product is suited for screw machining, gear cutting, turning, threading, and tapping of many steel alloys.

### FEATURES & BENEFITS

- Latest additive technology
- Reduced odor issues
- Versatility

### APPLICATIONS

This high quality cutting fluid is a heavy duty cutting oil and can be used in most applications involving ferrous metals. It was designed for the most severe applications where sulfur, chlorine, and fat is required.

### TYPICAL PROPERTIES

<b>PRODUCT CODE</b>	<b>820</b>
Viscosity, SUS/100°F	145
Flash Point, COC °F	345
Fat, %	8.0
Total Sulfur %	1.6
Active Sulfur, %	0.6
Chlorine, %	1.0
