

ADVANTAGE SAE 80W90 GL-4 GEAR OIL

OVERVIEW

ADVANTAGE GEAR LUBE 80W90 GL-4 is a multipurpose, extreme pressure gear lubricant recommended for use in spiral bevel or hypoid gear axles and certain manual transmissions. This gear oil is intended for service fill, top-off and refill of hypoid and other drive axles which recommend API GL-4 gear lubricants.

FEATURES & BENEFITS

ADVANTAGE GEAR LUBE 80W90 GL-4 provides good foam resistance, protects against rust and corrosion and has outstanding thermal and oxidation stability for long gear life.

APPLICATIONS

ADVANTAGE GEAR LUBE 80W90 GL-4 is suitable for use in manual transmissions and in drive axles with spiral bevel gears or with hypoid gears where a GL-4 gear lubricant is recommended.

SPECIFICATIONS

API GL-4
