

ADVANTAGE TYPE F ATF

OVERVIEW

ADVANTAGE TYPE F ATF is an automatic transmission fluid made from high quality base oils and additives that is specialized to provide the controlled frictional characteristics of a Type F fluid in older automatic transmission applications.

FEATURES & BENEFITS

ADVANTAGE TYPE F ATF is specially formulated to meet the lubrication requirements of passenger cars and light trucks manufactured by Ford Motor Company prior to 1977, and in many 1977-1981 models. **ADVANTAGE TYPE F ATF** can be used for service fills in all other automatic transmissions and power steering units that require a fluid meeting the requirements of Ford specification ESW-M2C33-F.

APPLICATIONS

ADVANTAGE TYPE F ATF features excellent oxidation control and thermal stability at high temperatures to minimize sludge and provide long service life. It also provides good anti-wear properties, protects against rust and corrosion, and has good foam resistance.

SPECIFICATIONS

Ford ESW-M2C33-F

TYPICAL PROPERTIES

Product Code	327
Viscosity, cSt @ 40°C	36.0
Viscosity, cSt @ 100°C	7.2
Viscosity Index	150
Flash, COC °C	224
Pour Point, °C	-40
Gravity, ° API	31.2
Color	Red
